-------------------------------	------------------------------	--------------------------------------	---------------------------------	-----------------------------------

PROFILE

Adobe Certified Magento 2 developer and Hyvä theme specialist building fast, stable, conversion-ready commerce for brands across the UK, Netherlands, France, Germany, and the US. Nine years of focused, Magento-only practice — clean architecture, safe upgrades, measurable Core Web Vitals wins, and ~2x faster delivery using Claude Code without trading off quality. I own the work end-to-end: scoping, build, deploy, and the boring-but-critical maintenance after.

“I HIGHLY recommend Kishan after his work on my Magento project — he handled the complexities of my site very effectively, and I’ll continue to use him moving forward.”

— Verified US client, Upwork (2025)

EXPERTISE

COMMERCE	Magento 2.4.x Adobe Commerce Hyvä Theme Hyvä Checkout M1 → M2 Migration B2B / Multi-store
	PWA Studio GraphCommerce Vue Storefront Shopify WooCommerce

AI TOOLING	Claude Code AI-assisted module dev AI test generation Codebase audits Prompt engineering
	Custom skills & hooks
INTEGRATIONS	Mollie Adyen Klarna Stripe Razorpay PayPal iDEAL SEPA SAP NetSuite
	FTP / SFTP order & stock sync

EXPERIENCE

Senior Magento 2 & Hyvä Engineer · Freelance

Jan 2021 — Present

Self-employed (Top Rated Plus, Upwork) · Associated with Panth Infotech

- Lead engineer for European and North American merchants delivering **Magento 2 / Adobe Commerce, Hyvä, and headless storefronts** end-to-end — from architecture through production hand-off.
- Shipped **Magento 2.4.8 upgrades** with full security-patch coverage and zero data loss across multi-region multi-store estates (UK / EU / AU / NZ / US).
- Built Hyvä storefronts and Hyvä Checkout integrations with **measurable LCP / TTFB / CLS wins** on real production traffic.
- Designed and maintained **38+ open-source Magento 2 modules** covering SEO, storefront UX, conversion, and operations — used in live merchant stores.
- Stood up **GitLab CI/CD pipelines**, Varnish, Redis, Elasticsearch, and tuned Nginx/PHP-FPM for production deployments.
- Pioneered **Claude Code** workflows for Magento — AI-assisted module dev, generated unit/integration tests, and AI-driven legacy audits — delivering 40–60% faster than traditional flow.
- Sustained **99% Job Success Score** across 124 jobs and **5,000+ logged hours**; 0–4 hour response time during client business hours.

Magento Developer → Senior Magento 2 Developer

Dec 2016 — Jan 2021

Cybercom Creation, Ahmedabad

- Started on PHP / MySQL / jQuery / Zend, then progressed to senior Magento 2 developer leading multi-store builds across health, retail, B2B, and marketplace verticals.
- Owned end-to-end delivery for **Functional Self**, **Rosita Real Foods**, **GBC Trading**, **Metal Plate Pictures** and **Virtual Beauty Pro** — including custom checkout flows, B2B pricing logic, and multi-warehouse fulfilment.
- Engineered warehouse stock-sync crons, **FTP-based order pipelines**, and customer-group pricing logic for B2B clients with login-gated catalogs.
- Translated Figma / XD / PSD designs into Magento 2 themes; integrated Porto, Webkul Marketplace, and a long tail of third-party extensions.
